

United States of America
Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SA00179WI

This certificate, issued to Avcon Industries, Inc.
P.O. Box 748 Building J.
City/County Airport
Newton, KS. 67114

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations. effective February 1, 1965, plus amendments listed in the Type Certificate.

Original Product — Type Certificate Number: A10CE
Make: Learjet
Model: 24, 25, 35, and 36 series

Description of Type Design Change: Installation of pressure dome provision for a infrared scanner in the camera door per Avcon Document List No. DL2425121, stamped "FAA Approved" with a date of August 2, 1994, or later. STC SA961CE must be previously installed.

Limitations and Conditions: This approval should not be extended to other specific airplanes of this model on which other previously approved modifications are incorporated, unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of these airplanes.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: July 11, 1994
